The EAEIE (European Association for Education in Electrical and Information Engineering) is an European non-profit organization, with members from nearly seventy European Universities, most of them teaching in the area of Electrical and Information Engineering (EIE).

The mission of the EAEIE is to enhance education in EIE through understanding of European education practices, industry participation, continuing education, credit transfer in international exchanges, scientific and educational research, and to determine criteria to establish standards on EIE education.

The 2008 edition of EAEIE Annual Conference will take place in Tallinn, whose beautiful Old Town with its fascinating medieval architecture and slender church spires is included in the UNESCO World Heritage list. EAEIE 2008 is organized by Tallinn University of Technology and technically co-sponsored by IEEE Region 8, IEEE Estonia Section and IEEE Computer Society Estonian Chapter.

The objective of the Conference is to bring together lecturers, researchers and professionals in the field of EIE all over Europe with the aim to exchange ideas and information and contribute to the development of EIE education. We cordially invite you to participate and submit your contribution to EAEIE 2008, which includes (but is not limited to) the following topics:

Special sessions:

- Bologna Process
- Developments outside EIE
- Assessment
- EU Thematic Network EIE-Surveyor
